“The Dog Poop Initiative” Book Companion

This book can be read to preschool, elementary, middle, or high school students. It also works great for staff development. Honestly – it’s a book to read to people. All people.

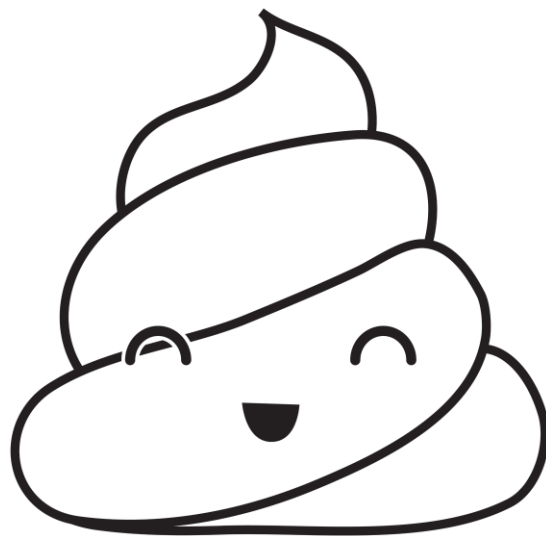

My husband and I have read this book more times than I can count to our 1 and 3-year-old. He also read it to his high school PE class toward the start of the semester. He was introduced to the book during a grad school class to become a school superintendent. While everyone else was presenting on professional leadership books, one of the counselors in the group presented on this book. It was the talk of the day!

Pull it out once and read it, or reread it throughout the year with a different focus or question each time. There are so many options you can do with this book!
